## FIRST DOCTOR'S APPOINTMENT

You can arrange the first appointment by calling the Reception at Artromedical, The Arthroscopy and Joint Reconstruction Surgery Center.

The Patient is asked to bring their original/copies of medical documentation (if they have one), that is:

- X-rays, USG, MRI and/or CT – not only image descriptions but also CD records;
- Lab tests results;
- Hospital charts;
- Hospital discharge cards.

## FIRST PHYSIOTHERAPIST'S APPOINTMENT

Usually the Patient sees the physiotherapist after seeing the doctor. If that's not the case, please directly call the physiotherapist ([see Rehabilitation Team](#)).

We kindly ask the Patients to bring sweat suits (that allow easy access to the sick area) and sports shoes or flip-flops.

Please bring medical original/copies of documentation (if you have one):

- X-rays, USG, MRI and/or CT;
- Lab tests results;
- Hospital charts;
- Hospital discharge charts.
